

## Multi-Purpose Mountable **WiFi Video Borescope** With 1m Telescopic Pole

Model No. **TV80W**

This is an innovative WiFi inspection camera that is equipped with a turntable stick which enables an user to mount the camera on different rods and poles to get extended reach. It's built-in WiFi hotspot for using on both iOS and Android devices. With the 1m supplied telescopic pole, it can do a lot of jobs that a standard snake borescope can't do. It's perfect for a wide range of applications including locating electrical wiring, building inspections, home inspection, for aviation and vehicle applications and even for search and rescue missions.

### Rotatable Turntable

The turntable stick makes this camera so versatile and flexible. It allows inspection without blind angle.

**NEW**

### Purpose of Design

A standard snake camera's tube is flexible and soft, so sometimes it is hard for an user to inspect a place that there is no good support for the tube, because the tube will be bended and inspection job won't be finished quickly.

With the 1m telescopic pole, this camera can do a lot of jobs more conveniently and quickly.
